SKILLS

- Languages: Java, JavaScript, TypeScript, Python, HTML, CSS, Kotlin, SQL, C#
- Frameworks & Tools: Vite, Svelte, TailwindCSS, Docker, Git, Astro
- Databases: MongoDB, MySQL, PostgreSQL
- Other: Windows, Linux (CLI & server management), REST APIs

LANGUAGES

- Dutch (Fluent)
- English (Fluent)
- French (Basic)

PROFILE

Self-driven and object-oriented programmer with a strong passion for full-stack development and building scalable, efficient applications. Experienced in both frontend and backend technologies, with a strong preference for backend development and system architecture.

WORK EXPERIENCE

Colruyt Group (Sint-Truiden)
Student Job

2022 - APRIL 2025

- Operated as a cashier, handling payments and assisting customers with purchases in a friendly and efficient manner.
- Restocked shelves and managed product placement to ensure store presentation and availability.
- Worked in the walk-in fridge, organizing and replenishing stock while applying FIFO (First In, First Out) principles to maintain product freshness and reduce waste.

Projects

2020 - PRESENT

- Designed and developed custom Java plugins for Minecraft servers, delivering optimized and scalable solutions for servers handling hundreds of concurrent players.
- Focused on gameplay mechanics, server performance, and backend systems tailored to large multiplayer environments.
- Worked with tools such as SQL, MongoDB, and Docker, with deployments managed on Linux servers.
- Used Git for version control and collaborated on projects via GitHub, handling issues, pull requests, and release cycles.
- Communicated closely with server owners and communities to gather requirements, provide technical guidance, and deliver tailored features that enhance gameplay and player retention.

EDUCATION

STEM + Applied Sciences + Math
Sint-Martinusscholen | Herk-de-Stad

2018 - 2024

Applied Informatics
Digital Department | PXL Hasselt

2024 - 2027
